Wednesday October 22, 2014 FOR IMMEDIATE RELEASE

Washington Federal Completes Fiscal Year With Record Earnings

SEATTLE, WASHINGTON – Washington Federal, Inc. (Nasdaq: WAFD), parent company of Washington Federal, today announced completion of its 97th fiscal year with record earnings of \$157,364,000 or \$1.55 per diluted share, compared to \$151,505,000 or \$1.45 per diluted share for the fiscal year ended September 30, 2013, a 6.9% increase in earnings per diluted share. Net income for the quarter ended September 30, 2014 amounted to \$40,560,000 or \$.41 per diluted share, compared to \$42,907,000 or \$.41 per diluted share for the same period one year ago.

Chairman, President & CEO Roy M. Whitehead commented, "It was another great year for the Company. Deposits increased by \$1.6 billion, supported by the acquisition of seventy-four branches. Loan growth, deposit mix improvement, and strengthening asset quality were all positive trends during the year that we expect to continue. In addition, there are good opportunities to manage costs lower over time. The Company enters the new fiscal year with good momentum and a positive outlook regarding its future prospects."

Net interest income was \$406 million for the year, a \$25 million or 6.7% increase from the prior year. Net interest income for the quarter was \$103 million, a \$6 million or 6.6% increase from the same quarter one year ago. Net interest income was higher for the quarter due to increased investment income and reduced interest expense on customer accounts.

Net interest margin was 3.05% for fiscal year 2014 which is a decline from 3.17% for the prior year. The primary reason was lower loan yields as a result of the low interest rate environment that were partially offset by the lower cost of customer accounts. Net interest

margin was 3.00% for the quarter ended September 30, 2014 compared to 3.05% for the prior quarter and 3.21% for the quarter ended September 30, 2013. Average earning assets increased \$1.7 billion or 13.4% compared to the prior year due primarily to investing the cash acquired with the branch acquisitions.

The provision for loan losses was a reversal of \$15.4 million for fiscal year 2014 compared to a \$1.4 million provision for 2013. Net loan recoveries were \$14.4 million in 2014, a significant improvement from the \$17.8 million of net charge-offs in fiscal 2013. The provision for loan losses was a reversal of \$3.5 million and \$2.3 million for the quarters ended September 30, 2014 and 2013, respectively, as a result of the improving asset quality trend. For the most recent quarter, \$6.7 million in loan recoveries more than offset \$2.1 million in charge-offs. The Company maintains an allowance for loan losses plus a reserve for unfunded loan commitments that total \$115 million or 1.33% of total gross loans as of September 30, 2014. This is a decrease due to improved credit quality as compared to \$117 million or 1.46% of total gross loans as of September 30, 2013. The allowance as a percent of non-performing loans improved to 132% from 89% during that same period.

Net loss on real estate acquired through foreclosure amounted to \$2.7 million for fiscal year 2014 and \$1.9 million for the prior year. Net gain on real estate acquired through foreclosure for the quarter was \$711,000 compared to \$5.3 million in the same quarter of the prior year. Net gain or loss on real estate acquired through foreclosure includes gains and losses on sales, ongoing maintenance expenses and any write-downs from reduced valuations at the time of foreclosure or during the marketing period of the properties.

The Company's efficiency ratio of 46.76% for the year remains among the lowest in the industry. Total operating expenses increased by \$40 million or 24.2% in 2014, driven by an increase in employees and branch locations provided by the acquisition of seventy-four branches from Bank of America located in Eastern Washington, Oregon, Idaho, New Mexico, Arizona and Nevada. Total other income increased by \$9 million or 39.8% in 2014. The year produced a return on assets of 1.10% and a return on equity of 7.99%. Return on assets for the quarter was 1.10% while return on equity was 8.19%.

Non-performing assets amounted to \$147 million or 1.00% of total assets at yearend, a \$66 million or 31.0% decrease from fiscal year-end September 30, 2013. Specifically, non-performing loans decreased to \$87 million as of September 30, 2014 from \$131 million at September 30, 2013, a 33.4% decrease. Total loan delinquencies were 1.44% as of September 30, 2014, a decrease from 1.97% at September 30, 2013. Delinquencies on single family mortgage loans, the largest component of the loan portfolio, declined during the year to 1.63% from 2.21% at September 30, 2013. Real estate held for sale decreased to \$55 million from \$73 million at September 30, 2013, an \$18 million or 24.5% decrease, and real estate held for investment decreased from \$9 million to \$5 million during the same period as the economic conditions for the sale of these properties has improved.

Total assets increased by \$1.7 billion or 12.8% to \$14.8 billion at September 30, 2014 from \$13.1 billion at September 30, 2013, largely due to the acquisition of seventy-four branches during the year with \$1.9 billion in deposits. Cash and cash equivalents increased by \$578 million. During the fourth quarter, the Company had an average balance of \$697 million in cash and cash equivalents invested overnight at a yield of approximately 0.25%.

Loans receivable grew by \$620 million or 8.2% during fiscal year 2014. This included higher mortgage originations and improved market penetration by our commercial lending teams. Loan originations for fiscal year 2014 totaled \$2.2 billion, which was a \$206 million or 10.5% increase over the prior fiscal year. Loans receivable grew by \$182 million or 2.3% during the fourth quarter. The Company views organic loan growth as the highest and best use of its capital. The weighted average interest rate on loans decreased to 4.75% as of September 30, 2014 from 5.01% as of the prior year-end. Actual yield earned on loans will be greater than the weighted-average rate due to net deferred loan fees and discounts on acquired loans, which will be accreted into income over the term of the loans.

Customer deposits increased by \$1.6 billion during the year to \$10.7 billion as of September 30, 2014 including the branch acquisitions. The mix of customer deposits continued to shift toward core transaction accounts. Transaction accounts increased by \$1.9 billion or 55.1% during the year while time deposits decreased \$323 million or 5.8% during

the year. Over the last several years the Company has focused on growing transaction accounts to lessen sensitivity to rising interest rates. For the first time in our history, transaction accounts represent the majority of our deposits. As of September 30, 2014, 51.2% of our deposits were in transaction accounts. This is an increase from 38.9% as of September 30, 2013.

On October 17, 2014, the Company paid a cash dividend of 14.67 cents per share to common stockholders of record on October 3, 2014. Beginning in 2015, the Board of Directors will consider regular dividend declarations in January, April, July, and October. Accordingly, an additional month will pass before the Board of Directors considers the next quarterly dividend. The 3.67 cent increase in this quarter's dividend over the prior quarter is a one-time payment in anticipation of this change and represents an additional one month's dividend income to compensate for the new schedule. This was the Company's 127th consecutive quarterly cash dividend. During the fiscal year, the Company also repurchased 4.8 million shares of stock at a weighted average price of \$21.59 per share and has authorization to repurchase an additional 5 million shares. During this same time period, the Company returned 95% of net income to shareholders in the form of cash dividends or share repurchases.

Washington Federal, a national bank with headquarters in Seattle, Washington, has 251 branches in eight western states.
