FOR IMMEDIATE RELEASE

## Washington Federal Announces Quarterly Earnings Per Share Of \$0.51

SEATTLE, WASHINGTON - Washington Federal, Inc. (Nasdaq: WAFD) (the "Company"), parent company of Washington Federal Bank, N.A. ("WaFd Bank"), today announced quarterly earnings of $\$ 38,951,000$ or $\$ 0.51$ per diluted share for the quarter ended December 31, 2020, compared to $\$ 67,866,000$ or $\$ 0.86$ per diluted share for the quarter ended December 31, 2019, a $\$ 0.35$ or $41 \%$ decrease in fully diluted earnings per share. Return on equity for the quarter ended December 31, 2020 was $7.65 \%$ compared to $13.46 \%$ for the quarter ended December 31, 2019. Return on assets for the quarter ended December 31, 2020 was $0.83 \%$ compared to $1.66 \%$ for the same quarter in the prior year.

President and Chief Executive Officer Brent J. Beardall commented, "We are pleased to report a strong start to our new fiscal year with record loan production, solid core deposit growth, strong asset quality and expansion of our net interest margin. Considering the ongoing turbulence in the world around us, both politically and economically, having a balance sheet with $\$ 1.8$ billion in cash and $\$ 2.1$ billion in equity provides significant flexibility to adapt and serve our clients. It is hard to believe that the majority of our teams have been serving our clients remotely for over nine months and we want to thank both our staff and our clients for working together to find solutions - while staying safe. We are appreciative of the government stimulus being provided to help those that have been most impacted and look forward to assisting small businesses with the Paycheck Protection Program's ("PPP") second round of funding in the next few weeks."

Total assets were $\$ 19.1$ billion as of December 31, 2020, compared to $\$ 18.8$ billion at September 30, 2020, as investment securities increased $\$ 114$ million and loans receivable increased by $\$ 89$ million. Cash was also $\$ 128$ million higher as a result of the large increase in customer deposits noted below.

Customer deposits totaled $\$ 14.2$ billion as of December 31, 2020, an increase of $\$ 387$ million or $2.8 \%$ since September 30, 2020. Transaction accounts increased by $\$ 575$ million or $5.9 \%$ during that period, while time deposits decreased $\$ 188$ million or $4.7 \%$. The shift in deposit mix has been a result of a deliberate deposit pricing and customer growth strategy and the focus on transaction accounts is intended to lessen sensitivity to rising interest rates and manage interest expense. As of December 31, 2020, $73.3 \%$ of the Company's deposits were in transaction accounts, up from $71.2 \%$ at September 30, 2020. Core deposits, defined as all transaction accounts and time deposits less than $\$ 250,000$, totaled $95.9 \%$ of deposits at December 31, 2020.

Borrowings from the Federal Home Loan Bank ("FHLB") totaled $\$ 2.6$ billion as of December 31, 2020, a decrease of $\$ 100$ million since September 30, 2020. The decrease was due to the termination of a hedged FHLB borrowing that had an effective interest rate of $1.39 \%$. The weighted average interest rate of FHLB borrowings was $1.82 \%$ as of December 31, 2020, versus $1.79 \%$ at September 30, 2020.

The Company had strong loan originations of $\$ 1.92$ billion for the first fiscal quarter 2021, an increase of $40 \%$ from the $\$ 1.37$ billion of originations in the same quarter one year ago. Largely offsetting loan originations in each of these quarters were loan repayments of $\$ 1.60$ billion and $\$ 1.30$ billion, respectively. Commercial loans represented $75 \%$ of all loan originations during the first fiscal quarter of 2021 and consumer loans accounted for the remaining $25 \%$. The Company views organic loan growth funded by low-cost core deposits as the highest and best use of its capital. Commercial loans are preferable as they generally have
floating interest rates and shorter durations. The weighted average interest rate on the loan portfolio was $3.64 \%$ as of December 31, 2020, a decrease from 3.71\% as of September 30, 2020, due primarily to payoffs of loans at higher than market interest rates and new loans originated at market rates.

Credit quality is being monitored closely and the economic impacts of the pandemic will become clearer over time. As of December 31, 2020, non-performing assets remained low from a historical perspective and totaled $\$ 66.5$ million, or $0.35 \%$ of total assets, compared to $0.24 \%$ at September 30, 2020. The change was due to non-accrual loans increasing by $\$ 29.4$ million, or $101 \%$, since September 30, 2020. Delinquent loans increased to $0.52 \%$ of total loans at December 31, 2020, compared to $0.24 \%$ at September 30, 2020. The allowance for credit losses (including the reserve for unfunded commitments) totaled $\$ 197$ million as of December 31, 2020, and was $1.33 \%$ of gross loans outstanding ( $1.39 \%$ when excluding PPP loans for which it was determined that no allowance was necessary due to the government guarantee), as compared to $\$ 192$ million, or $1.33 \%$ of gross loans outstanding, at September 30, 2020. Net recoveries were $\$ 1.7$ million for the first fiscal quarter of 2021 , compared to net recoveries of $\$ 2.6$ million for the prior year same quarter. The Company has recorded net recoveries in 28 of the last 30 quarters.

The Company recorded a provision for credit losses of $\$ 3.0$ million in the first fiscal quarter of 2021, compared to a release of allowance for credits losses of $\$ 3.8$ million in the same quarter of fiscal 2020. The provision in the current quarter is primarily due to reserving for new loan originations and changes in composition of the loan portfolio.

On November 20, 2020, the Company paid a regular cash dividend of $\$ 0.22$ per share, which represented the $151^{\text {st }}$ consecutive quarterly cash dividend. During the quarter, the Company repurchased 32,956 shares, related to tax withholding on employee equity awards, of common stock at a weighted average price of $\$ 21.29$ per share and has authorization to
repurchase $4,594,275$ additional shares. The Company varies the size and pace of share repurchases depending on several factors, including share price, lending opportunities and capital levels. Since September 30, 2020, tangible common shareholders' equity per share increased by $\$ 0.58$, or $2.6 \%$, to $\$ 23.10$ and the ratio of tangible common equity to tangible assets was $9.34 \%$ as of December 31, 2020.

Net interest income was $\$ 121$ million for the first fiscal quarter of 2021, an increase of $\$ 0.8$ million or $0.7 \%$ from the same quarter in the prior year. Average interest-earning assets increased $\$ 2.4$ billion or $15.58 \%$ from the prior year while average interest-bearing liabilities increased $\$ 1.8$ billion or $14.20 \%$. The average rate earned on interest-earning assets declined by 97 basis points while the average rate paid on interest-bearing liabilities declined by 67 basis points. Net interest margin of $2.75 \%$ in the first fiscal quarter of 2021 was up from $2.67 \%$ in the prior quarter and down from $3.15 \%$ for the same quarter in the prior year. The compression in the net interest margin since the prior year same quarter is primarily due to the rapid drop in short-term rates by the Federal Reserve Bank in response to the COVID-19 pandemic which resulted in the changes in average rates noted above.

Total other income was $\$ 13.9$ million for the first fiscal quarter of 2021, a decrease from $\$ 46.4$ million in the prior year same quarter. The decrease was primarily due to the prior year quarter including a gain of $\$ 32.6$ million on sales of fixed assets, including a branch property in Bellevue, Washington.

Total other expense was $\$ 81.4$ million in the first fiscal quarter of 2021, a decrease of $\$ 1.2$ million, or $1.5 \%$, from the prior year's quarter. Compensation and benefits costs increased by $\$ 6.1$ million, or $16.6 \%$, over the prior year quarter primarily due to a $4.8 \%$ rise in headcount, annual merit increases as well as higher bonus compensation that reflects increased loan production activity since the prior year. Information technology costs decreased by $\$ 5.3$ million, primarily due to the prior year quarter including a $\$ 5.9$ million impairment charge on systems
hardware and software. The Company's efficiency ratio in the first fiscal quarter of 2021 was $60.6 \%$, compared to $57.1 \%$ for the same period one year ago. The increase in the efficiency ratio is primarily due to lower other income as described above.

Income tax expense totaled $\$ 10.6$ million for the first fiscal quarter of 2021, as compared to $\$ 18.4$ million for the prior year same quarter. The effective tax rate for the quarter ended December 31, 2020 was $21.35 \%$ and unchanged from the quarter ended December 31, 2019. The Company's effective tax rate for the quarter ended December 31, 2020 is different from the statutory rate mainly due to state taxes, tax-exempt income and tax-credit investments.

WaFd Bank is headquartered in Seattle, Washington, and has 234 branches in eight western states. To find out more about WaFd Bank, please visit our website www.wafdbank.com. The Company uses its website to distribute financial and other material information about the Company.

## Important Cautionary Statements

The foregoing information should be read in conjunction with the financial statements, notes and other information contained in the Company's 2020 Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

This press release contains statements about the Company's future that are not statements of historical fact. These statements are "forward looking statements" for purposes of applicable securities laws, and are based on current information and/or management's good faith belief as to future events. The words "estimate," "believe," "expect," "anticipate," "project," and similar expressions signify forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance. By their nature, forward-looking statements involve inherent risk and uncertainties, which change over time; and actual performance could differ materially from those anticipated by any forward-looking statements. In particular, any forward-looking statements are subject to risks and uncertainties related to the COVID-19 pandemic and the resulting governmental and societal responses. The Company undertakes no obligation to update or revise any forward-looking statement.

## Ready to Help Small Businesses and Individuals:

## WaFdBank

## Capital Management

1) Bank is very well capitalized with TCE + ACL to TCA ratio at $10.2 \%$, which would rank us as the 32nd best capitalized publicly traded bank in the United States
2) Current cash dividend is at $\$ 0.22$ per quarter which is a $43 \%$ payout ratio of the current quarter's earnings of $\$ 0.51$. The Company has paid out a cash dividend for 151 consecutive quarters and believes the current dividend is reasonable based on expected earnings going forward but the Board will act in the long-term interest of shareholders if earnings diminish substantially as a result of COVID-19 credit costs.
3) The Company's ongoing share repurchase program remains in place; however, management believes that it is prudent to pause repurchases for the time being as it continues to evaluate the extent of the COVID-19 related economic impact.
